“New Deco” Design

Featured in Tattersalls Hotel Armidale refurbishment (Luchetti Krelle)

A Passion for Heritage

We are passionate about preserving unique heritage features at Sydney Pressed Metal.

Our panels are pressed locally in Australia from original dies by TW Inghams, the last remaining original pressed metal manufacturer in Australia.

Australian Pressed Metal was fortunate enough to purchase the original pressed metal dies from TW Inghams, saving them from the same fate as the Wunderlich dies, 4000 of which were destroyed back in the 1950's when the company was bought out and heritage features were not as highly prized as they are today.

We are busy continually discovering original dies for designs that have not been seen for many years and restoring these original dies to the highest standard. In addition, we have been reproducing from original Wunderlich panels for heritage projects we have been involved with.

We now have the largest range of original designs in Australia and our aim is to keep adding more as we make exciting discoveries in our warehouse vault. Our commitment to producing the best quality product is 110% and our aim is to stock the largest amount of pressed metal designs in Australia.

Panels are pressed from a quality O grade lightweight aluminium, are heat resistant and suitable for splashbacks, wall panelling, door inserts and kick panels, feature walls, and behind stoves and combustion heaters, roofing, gables, outdoor kitchens and BBQs as well as the traditional use for ceilings.

The O grade aluminium used in our manufacturing process is food grade and hygienic quality suitable for raw aluminium splashbacks and is fire rated and has been tested by the CSIRO to guarantee the quality of the product. With today's technology, we can offer many designs as specialty orders of Copper, Brass, Soft Zinc, Stainless Steel, Perforated Steel, Colourbond, Zinalume and Heritage Galv.

Drawing on over 40 years of experience in the conservation of our heritage listed buildings throughout Australia we offer a full restoration, installation and advisory service to Builders, Architects, and Interior Designers for all pressed metal products.
